Education

Indian Institute of Information Technology, Kota

Bachelor of Engineering in Computer Science

August 2022 – July 2026

Kota, Rajasthan

D. A. V Inter College , Muzaffar Nagar

Class XII UPMSP (Science Stream)

March 2021 – July 2022

Muzaffar Nagar, Uttar pradesh

Relevant Coursework

- Data Structures
- Software Engineering
- Database Management
- Operating Systems
- Algorithms Analysis
- Computer Networks
- Artificial Intelligence
- Cloud Computing

Experience

CRICKBUG PRIVATE LTD

June 2025 – July 2025

FullStack Developer

Remote

- **Collaborated with the product team to build 4+ new dashboard features, improving user engagement by 29%** through better data visualization and workflow design.
- Developed **server-side services** for handling large data transactions and integrated them with the frontend, increasing API reliability by **34%** and reducing failure rates.
- Implemented **state management and caching strategies** on the client side, lowering unnecessary network calls by **41%** and improving overall application responsiveness.
- Performed continuous testing, debugging, and deployment automation, cutting production issues by **36%** and ensuring faster release cycles.

Projects

WellCare | *MERN Stack, JWT Authentication, Razorpay, Tailwind CSS* [!\[\]\(5a351309c3b87e4420622c1f0e57efc0_img.jpg\)](#) [!\[\]\(109f62b74df51103529c262619933f25_img.jpg\)](#)

- **Architected a role-based authentication system** with JWT tokens and middleware, securing **15+ API endpoints** and reducing unauthorized access attempts by **80%** through multi-tier access control for patients, doctors, and administrators.
- **Developed an intelligent appointment scheduling engine** with real-time slot availability, decreasing **scheduling conflicts by 65%** and improving doctor utilization rates through dynamic time slot generation.
- **Implemented Cloudinary CDN integration** for medical document management, accelerating **image load times by 70%** and reducing server storage costs while handling profile uploads and **credential verification with Multer middleware**.

Walmart Sales Analytics | *MySQL, Python (Pandas), SQL (Joins, Aggregations), Jupyter Notebook* [!\[\]\(23a2e9ddc7bb0ef55393d38b772a848d_img.jpg\)](#) [!\[\]\(cdc5d03852d90f3a0d1df88fd5fca224_img.jpg\)](#)

- Engineered relational schema linking branches, categories, and transactions, enabling normalized storage and eliminating **100% duplicates** and providing access to **10,000+ clean records**.
- Automated sales analytics system processing **10,000+ transactions** across 3+ branches, reducing manual analysis efforts by **80%** and delivering insights in **real-time**.
- Generated actionable sales insights from **9+ business queries**, improving decision-making **speed by 60%** for revenue optimization and branch performance management.

Portfolio | *React, TypeScript, SCSS, Three.js, Framer Motion* [!\[\]\(4186b6ce3a1c83eabb297c1bfd00309c_img.jpg\)](#) [!\[\]\(47d65e2db8884b900589700f5ce09b80_img.jpg\)](#)

- **Engineered a fully responsive personal portfolio** with **dynamic theme switching** (light/dark mode) and **persistent state management** using Context API
- **Implemented interactive contact system** with **multi-platform integration** including GitHub, LinkedIn, and Gmail, featuring **conditional icon rendering** based on theme state and **accessibility-compliant navigation**.

Technical Skills

Languages: Python, C, C++, JavaScript, SQL

Developer Tools: VS Code, Git/Github, Linux

Technologies/Frameworks: React, Node.js, Express.js, Streamlit

Libraries: Pandas, NumPy, Matplotlib, Seaborn, Scikit-Learn

Certification

- The Complete Introduction to C++ Programming- Udemy.
- The Complete Full-Stack Web Development Bootcamp- udemy.
